

introduces an exclusive new product in our vinyl series:

Vinyl Color Laminate Components

- Color is applied only to exposed areas to minimize cost impact
- Color is fuse-welded during extruding
- Color laminate is UV resistant
- Whole PVC part conforms to ASTM D4216, C1063
- Ideal for use with manufactured veneer stone and for color stucco matching
- Available standard in brown, gray and tan (optional colors available upon request)

Color only where you need it!
