

DRYWALL CORNER BEADS

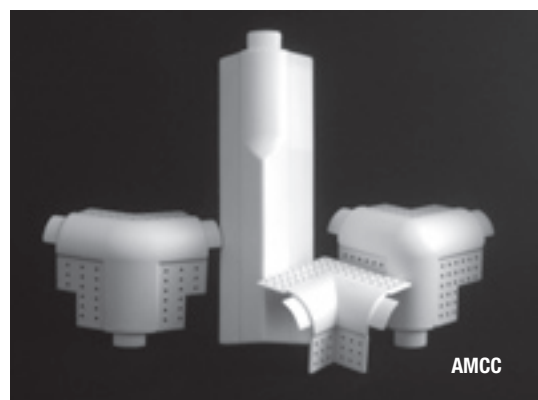

Drywall Bull Nose Corner Bead provides an architecturally attractive corner that is both durable and straight for a softer, more rounded appearance.

Product No.	Perforated Flange	Length	Board Thickness	Box Count
AMBNCB-750	3/4" x 3/4"	8' and 10'	All	50

Drywall Bull Nose Corner Caps add the perfect finishing touch to compliment the bull nose corner bead system. These caps are great time savers that allow the installer to avoid the costly procedure of mitering corners.

Product No.	Dimensions	Box Count
AMCC-200	2-way 90°	50
AMCC-333	3-way off angle	50
AMCC-750	3-way 90°	50
AMBTC-8590	Cap/Base Transition	50

Drywall Arch Bull Nose Corner Bead provides strength and durability to curved edges that require a softer, more rounded appearance to the corner. The bull nose arch corner bead is pre-notched to easily facilitate the curving of this bead during installation.

Product No.	Perforated Flange (one slotted)	Length	Board Thickness	Box Count
AMBNCB-Arch	3/4" x 3/4"	8' and 10'	All	50
