16	Specialty Products

**Metal Lath Products meet the following specifications**

- ◆ All Metal Lath meets American Society for Testing and Materials - ASTM A 653, and C 847.
- ◆ All Cornalath, channel and bead accessories and wire meet specifications ASTM C1063 for exterior applications and ASTM C 841 for interior applications.
- ◆ All paper backing material meets Federal Specification UU-B-790a.
- ◆ AMICO recommends the use of galvanized lath and zinc alloy or vinyl accessories for all exterior applications.
- ◆ Galvanized lath and accessories are zinc coated carbon steel and zinc alloy accessories are 99.9% pure zinc throughout the bead.
- ◆ For technical assistance call 800/366-2642 and ask for the AMICO technical services department.
- ◆ All lath and accessories must be protected from weather during shipment and storage. (ASTM C 1063 Section 5)
